

Bring
the
outside
in

Conservatories? We don't manufacture anything else.

The perfect conservatory should be designed around your needs as the focal point for your family's lifestyle. Your room with a view will become the room of choice for guests, a place to share treasured moments or somewhere to relax into after a hard days work.

We've been making conservatories since 1995 and Wendland systems are at the cutting edge of conservatory technology. We were the first company to gain the government-backed BBA certification for the quality of our products.

Now, our newest generation of Wendland conservatories are compatible with the latest orangery and solid roof innovation to help you create a bespoke space for you to enjoy.

A natural bridge between your garden and the great outdoors

Your conservatory should bring outdoor living into the heart of your home as you watch the seasons change in comfort.

Throw the doors open and feel the warm summer breeze or close the doors and watch winter pass.

Whether its supper under the stars, breakfast in the morning sunshine or a lazy lunch to while away a Sunday afternoon, simply savour the food and enjoy the view from your unique Wendland conservatory.

A comfortable space all year round

The perfect conservatory should be designed around your needs as the focal point for your family's lifestyle. Your room with a view will become the room of choice for guests, a place to share treasured moments or somewhere to relax into after a hard days work.

We've been making conservatories since 1995 and Wendland systems are at the cutting edge of conservatory technology. We were the first company to gain the government-backed BBA certification for the quality of our products.

Now, our newest generation of Wendland conservatories are compatible with the latest orangery and solid roof innovation to help you create a bespoke space for you to enjoy.

Inquiring minds need space to explore.

Imagine somewhere for all those toys, not to mention paper, paints, sticky stuff and goodness knows what, or a wet afternoon brightened up with a favourite film snuggled up together.

Of course, their own private jungle adventure lies just outside the doors, well within your watchful gaze.

Your own space
for your own
time.

Space and light is at the heart of your conservatory. With the outside so close, there's a sense of freedom. No dark walls and ceilings - just light.

Relax and unwind, read a book, enjoy your garden and drift away from the pace of everyday life.

Choose a Wendland conservatory, and we'll help bring your space to life.

Choices, choices.

With a Wendland conservatory, you can create the space you really want. That's because we've taken the time to make sure almost any design is possible.

The Wendland system is engineered to cope with large spans and difficult shapes and is available in a range of finishes. Do you prefer the clean simplicity of white? What about the rich warmth of a timber finish in mahogany, rosewood or light oak?

The choice is yours - you can even choose one finish on the outside, and another on the inside.

Get the Orangerie look

With Wendland you can create the look and feel of an orangery with the addition of an insulated pelmet and an external decorative cornice.

Wendland's insulated pelmet surrounds your new space where the roof meets the windows. Once plastered, it can be painted to match your interior creating a more 'room like' feel without compromising on light. This special insulated pelmet adds thermal efficiency and can also house down lighters or speakers to create something unique.

An external decorative Cornice from Wendland adds style and glamour to your new space by shielding the gutters and framing the roof to create the overall visual effect of an Orangerie.

Create a glazed extension

If you'd prefer a solid roof to a glass roof you'll never have to compromise on light with a Wendland conservatory. Solids roofs provide increased thermal performance and an internal vaulted and plastered ceiling can turn a conservatory into an extension.

Wendland is compatible with two solid roof systems Ultrarroof380 and LivinRoof. Ideal for replacing an old conservatory roof or creating a new glazed extension, both systems are engineered so you can choose the location and number of glass panels in the roof to let the right amount of light flood into your new room.

LivinROOF 's unique contemporary grey panelled design enables you to insert shaped glazing into any panel, maximise thermal performance and achieve a stunning internal plastered ceiling.

UltraRoof380 is the most advanced lightweight tiled roof available on the market today. With the UK's most authentic tiled finish and a choice of colours Ultrarroof380 is designed to match your house existing roof.

Make no mistake.
Your Wendland
conservatory is built
to last.

To begin with, your space will look just as good in ten years' time - because we insist on using materials which don't discolour over time.

Tested to the extremes - built for Britain

The British Board of Agrément has been testing and approving building products for over 35 years. They're also fully approved by the UK government. So when they say our conservatories make the grade, it's really something.

Here's what they say the Wendland system can stand up to:

- Temperatures from +35°C to -15°C
- Wind speeds up to 125mph
- 15,300mm of rain (that's a lot of rain)
- 57 days of large hail stones
- 450 days of snow

Choose Wendland
and you'll be
joining over 20,000
people every year.

A conservatory is possibly the most desirable and technically demanding home improvement you will ever make. That's why you need a specialist company to deliver your dream conservatory. There are dozens of factors that make a well chosen conservatory special. Here are the top five for you to think about.

- **Expert design:** We will advise you every step of the way to ensure the design complements your home, makes the most of the space and looks great too.
- **A world of choice:** Whether you're looking for a conservatory, orangery or extension, let your imagination and our experience be your guide.
- **Quality manufacture:** The best of modern materials, professionally constructed, lovingly installed by people who care.
- **Warm and secure:** Energy efficient construction will stand up to any weather for year round use.
- **A flexible space:** We know that as life changes your new space needs to be flexible whether to be used as a dining room, playroom, gym, study, lounge or simply somewhere to escape.

Structure and build

Victorian

Classic. Airy. Versatile. This traditional design works brilliantly - no matter how you want to use your space. Choose three facets, or a more rounded front with five facets.

Georgian

You want as much light and usable space as possible. So this clean and simple design makes perfect sense.

Gable

A surprising take on the traditional conservatory. This design has a gable front - for an eye-catching space which really blurs the line between your home and your garden.

Lean - To

Let there be light - flooding into your new space thanks to a simple, elegant design. No wonder it's the perfect choice if you live in a bungalow, or if you're faced with planning restrictions on height.

Combination

So you want a large space. But you also want to keep the drama in your garden. Our combination designs are the perfect answer.

Victorian Popular style with a faceted front giving a traditional curved appearance

Georgian A flat-fronted style offers excellent use of the floor space

Gable The higher ridge height adds a sense of grandeur

Lean to Provides a clean, simple look maximising floor space

T Shape Offers a large and versatile floor space with a Victorian, Georgian or Gable style central projection

P Shape Ideal for a larger conservatory and combines a Victorian (or Georgian) with a lean-to or
B-Shape Offers a large and versatile floor space with 2 'rooms' at either end and a conservatory linking the two.
